

ENKRYPTO

THE GURDIAN OF KRYPTOPOLIS

what a lovely day.
It's good to be home and
get back to work

THE DAILY KRYPTO

Enny,
boss wants to see you
in his office, NOW.

OMG wait till he
hears what happened

Ay Enny,
guess what that's worth?...
NOTHING! Didn't I tell ya?
It was too good to be true!
EnKrypto did it to us too!"

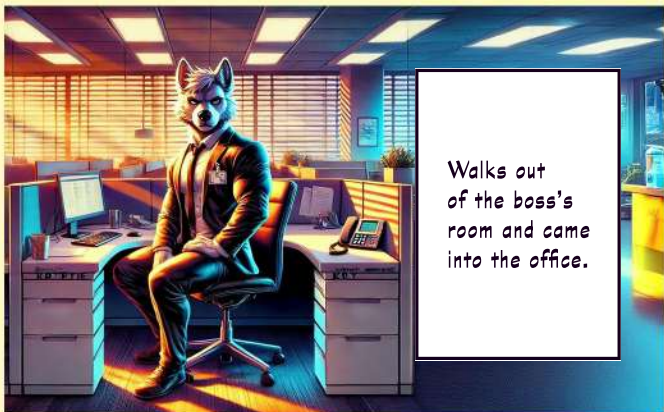

Wow, you really were on vacation, wait til you wake up and see the chart. Anyways I need you to write the article on how the people of Kryptopolis have been betrayed and title it 'How EnKrypto Betrayed His Community'

Yes Sir

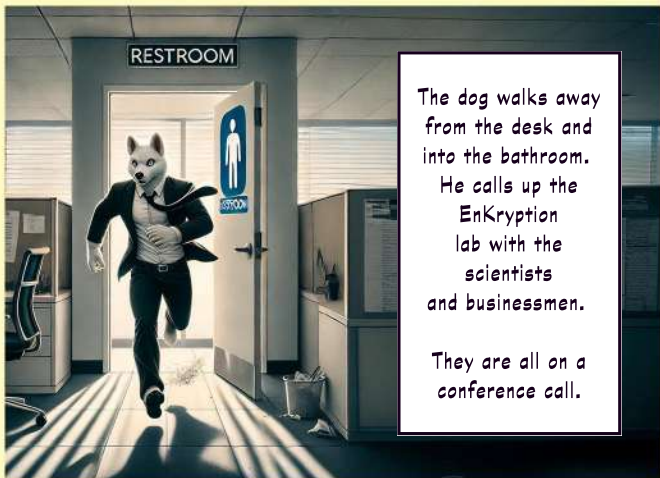

Walks out
of the boss's
room and came
into the office.

He goes on his computer and searches up the chart of EnKrypto.
He sees the trending upward candles and then the one massive red candle

The dog walks away
from the desk and
into the bathroom.

He calls up the
EnKryption
lab with the
scientists
and businessmen.

They are all on a
conference call.

What do you mean you got scammed? You're supposed to stop the scamming, how do you get scammed?

I'm sorry I received a call asking to secure my accounts and they asked for information, so I gave it to them

What do you mean you gave it to them

I...I didn't think anything of it until they mischievously told me that I had been compromised and they had stolen the EnKrypto and dumped it."

I thought we were all compromised and that they had infiltrated the system, so I decided to get rid of my EnKrypto before the hackers could get into my systems.

No, I'm serious. I thought we were compromised.

How can we be compromised? We're literally EnKrypted, that's what we're doing here.

Well, I thought that was it.

Well, I guess this wasn't your battle to fight then buddy."

Okay what's the situation? How are the people of Kryptopolis? I just got back in and everyone here seems on edge.

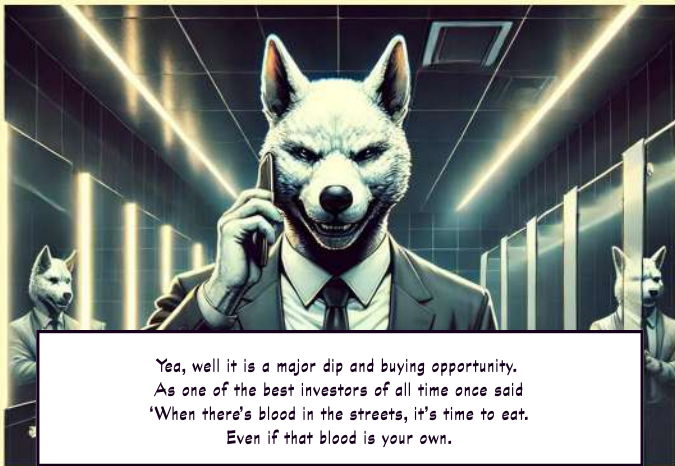

Well, I guess that's my job

Scientist 3 replies "Yes Enny, it's a brutal situation at the moment, but we told them that when you come back you will make it all better, God Willing."

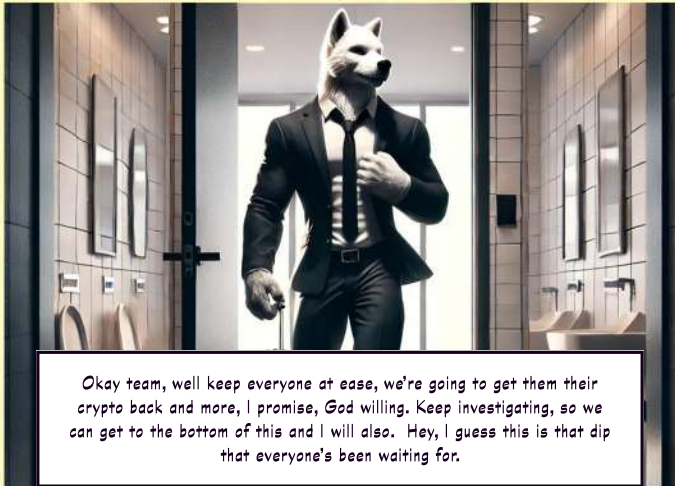

Scientist 4 goes "The price of this thing is so cheap, you know what? I'm going to buy more!"

Scientist 5 agrees and they both go on phantom on their phones and buy more.

Yea, well it is a major dip and buying opportunity.
As one of the best investors of all time once said
'When there's blood in the streets, it's time to eat.
Even if that blood is your own.

Okay team, well keep everyone at ease, we're going to get them their
crypto back and more, I promise, *God* willing. Keep investigating, so we
can get to the bottom of this and I will also. Hey, I guess this is that dip
that everyone's been waiting for.

He sits at his desk and pulls up solscan and tracks the transfers from where EnKrypto was sold to where it was transferred to after. He finally ends up at the wallet

Starts sending EnKrynaipted
messages from his phone

I sent you an address,
look into it.

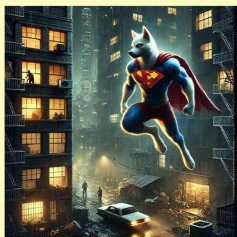

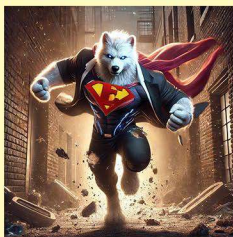

Yea, just feeling
a little under
the weather.

Hey Enny, you alright?
You're leaving
a little early today.

Yea, well feel better. It's a shame what
happened to EnKrypto but you know what?
I'm buying more. I don't think he'll let it
fall like that, especially sacrificing himself
for his own people like that. Right?

Yea I don't think so either, I'm
sure he'll do whatever it takes
to take them to new heights
and beyond.

I'm sorry, I'm going to get to the bottom of this.
I promised you I will get your crypto back and I will.

A white wolf with blue eyes is dressed as Superman, standing on the edge of a skyscraper at night. The city lights of New York City are visible in the background. The wolf is wearing a blue suit with a red cape and a yellow 'S' shield on its chest. A speech bubble is positioned to the right of the wolf's head.

To Be Continued

I will find the perpetrators and get everyone their crypto back like I have been EnKrypted to do and take EnKrypto to new heights.
